# CHRISTIE
# TECHNOLOGY SPOTLIGHT

## Interactive displays

Immerse and engage students through their learning journey with touch free interactivity solutions.

**AirScan**
Combined with Widget Designer, AirScan allows for touch free interactivity not possible with traditional displays.

## Small to medium venue projection

These feature-rich, low maintenance projectors offer quality visual performance and are ideal for the daily needs of classrooms, lecture halls and collaboration spaces.

**GS Series**
Low cost of ownership without sacrificing quality. Equipped with built-in speakers.

**HS Series**
Extra visual punch without blowing the budget. Offers built-in blending and warping.

## Large venue projection

Captivate large audiences with high brightness laser projection with BoldColor™ Technology or premium RGB pure laser projection.

**Griffyn Series**
All-in-one RGB laser projection. Lightweight, compact design featuring less than 46dBA at full brightness.

**Crimson Series**
Built-in warping and blending, BoldColor™ Technology for life-like image quality and over 30,000 lumen output.

**HS Series**
Built-in warping and blending, BoldColor™ Technology for life-like image quality and 4K UHD resolution options.

## Large-format LCD displays

Large-format displays offer a flexible fit and are designed for years of low-maintenance and reliable performance. Available in a range of sizes (up to 98") for a big impact in any setting.

**Access II Series**
Low cost of ownership without sacrificing quality. Equipped with built-in speakers.

## Video walls

Create the most advanced, dynamic & engaging video walls.

**MicroTiles® LED**
The latest in LED video wall technology, design flexibility & advanced mechanical design.

**Core Series**
Reliable & affordable LED video walls ideal for smaller-scale installations & public space applications.

**Ultra Series**
Ultra-narrow bezel LCD video wall panels designed for long-lasting and reliable 24-/7 performance.

**Extreme Series**
High-performance LCD video wall panels with an extremely narrow combined bezel width and a full range of features.

## Content management

Christie offers powerful media servers and players along with flexible processors for creative video, multi-windowed displays and versatile networked control room applications.

**Pandoras Box®**
Family of hardware & software tools includes all the real-time video playback & processing that you need.

**Terra®**
Easy management of AV content over Ethernet networks.

**Phoenix®**
A network-distributed information management system for your campus.
