OPTIMIZING OPERATOR PERFORMANCE

COMMAND & CONTROL CENTER

A large information display is the focal point of every command room. Intelligent power solutions help keep it running when power failure is not an option. Ergonomically-designed AV furniture maximizes operator productivity with features that make a huge difference in control room efficiencies. Count on Legrand | AV for extremely reliable solutions that drive the nerve center of your operation and enable top performance from your team.

COMMAND CENTRAL

VIDEO WALL AND CONSOLES

Product recommendations for an 8x8 direct view LED wall (flat wall) and KVM over IP system for command/control center.

NOTE: Video distribution and direct view LED system not shown in diagram.

SECURE CONFERENCE

VIDEOCONFERENCING

The Vaddio RoboFLIP 30 HDBT PTZ camera fully rotates into its ceiling enclosure when it's in standby mode, providing full assurance that it's off and video feeds are not active. Ideal for conference rooms where knowledge of active video status is of critical importance.

*Audio design in the Non-Secure example to be determined by integrator based on situation.

CLASSIFIED COLLABORATION

SITUATION ROOM

An adjoining conference room with videoconferencing capabilities is vital to the success of any command and control center. High-quality conferencing is dependent on outstanding cameras, first-rate microphones and speakers, and connectivity to support them. Dual display mounts give a boost of collaborative power to any situation room, while three-bay credenzas make it easy to separate equipment based on classification levels. Conference table that properly support AV technology are engineered for ultimate system reliability 24/7/365.

RACK STORAGE

RACK CONSIDERATIONS

Choosing the right racks will ensure stability and long life for the equipment that's installed inside. AV racks with a narrow form factor make for easier assembly and equipment maintenance. IT racks must hold longer server devices and have different thermal management requirements.

SET THE FOUNDATION FOR RELIABILITY

EQUIPMENT STORAGE WING

The equipment storage wing is the foundation of a command center. Robust equipment racks take into account not only the mounting of critical electronic components, but can also ensure long-term reliability when they are designed with proper heat and cable management.

AV RACK KIT

Pre-Configured BGR for AV
BGR-4532-AV

AV RACK KIT INCLUDES:

- Doors and side panels
- Forward panels
- Forward mounting accessories
- Cable management
- Thermal management
